

Gwitterchäs (Thunderstorm)

History

Dark clouds brew up over Bütschwil, as the wind whips dangerously around the Güntensperger cheese dairy. Then even the power goes out, and the cheese makers lose their vigilance. They realise too late that they have set the cream content in the cheese production too high. But after seven months of ripening, the cheese makers are rewarded for this mishap with a storm of aromatic and spicy flavours. It is now a stormy time in the cheese dairy, because this Gwitterchäs has taken cheese connoisseurs by storm.

Taste

A distinctly creamy hard cheese that sweeps across the palate like a storm of flavours with its strong, spicy aroma and fine salt crystals.

Sales arguments

- > Creamy and delicate with a stormy, spicy flavour.
- > A cream cheese that takes cheese connoisseurs by storm with its spicy character.
- > A gold award-winning cheese. (World Cheese Award)
- > This cheese is winning over cheese connoisseurs, as it is our best-selling cheese.
- > Brings a breath of fresh air to the cheese board and whips up the bread for breakfast.
